IT'S TEXTING OR DRIVING

NINE people in the United States die EVERY DAY in crashes that are reported to involve a DISTRACTED driver.

Texting combines ALL three types of driving DISTRACTIONS at once: VISUAL, MANUAL and COGNITIVE.

MANUAL: Something that causes you to take your HANDS off the wheel.

VISUAL: A distraction that diverts your EYES off the road.

COGNITIVE: Anything that takes your MENTAL focus off the road.

Drivers using hands-free devices can be COGNITIVELY distracted. Since your MIND is occupied elsewhere, you can miss up to HALF of what’s in your field of vision.

DID YOU KNOW?

Anything that takes your ATTENTION away from DRIVING can be a distraction that endangers you, your passengers and others on the ROAD.
