How to Use the Safety Cards

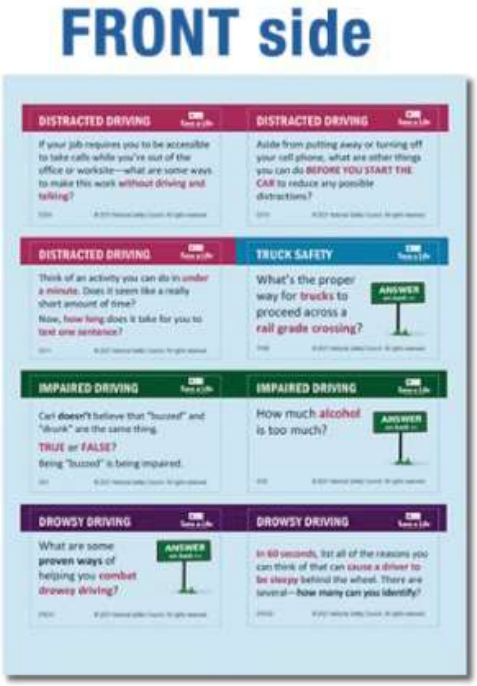

Use our FREE Safety Coach Cards to create a quick safety talk. They are perfect both in your office or outside of a traditional office setting. Cards feature discussion points and questions with suggested answers.

Cards are labeled with a topic:

- Aggressive Driving
- Distracted Driving
- Distraction & Pedestrians
- Driving Basics
- Drowsy Driving
- Impaired Driving
- Passenger Restraint
- Truck Safety

Use all the cards of one topic to form a complete safety lesson or mix them up for a Jeopardy-style quiz game.

1. Download the PDF file that contains the cards in ENGLISH or SPANISH.
2. **PRINT** the cards on **CARDSTOCK**, double-sided. Odd-numbered pages are the card **fronts**, and even-numbered pages are the card **backs**.

3. Use a paper cutter to cut the cards on the faint yellow lines. Finished card size should be approximately 3.5 inches by 2.25 inches.

4. The small code on the bottom left of the card front should match the one on the back.
